

FOR IMMEDIATE RELEASE

Allen Corporation Selected by McAfee for Phase One of the McAfee Supported ENS 10.5 Customer Migration/Upgrade Program

Allen Corporation (Allen), one of the leading McAfee Services Delivery Specialization Partners, has been selected by McAfee to participate in phase one of the McAfee supported ENS 10.5 customer migration/upgrade program. McAfee Endpoint Security (ENS) provides a collaborative security framework that reduces the complexity of endpoint security environments, delivers better performance that protects productivity, and offers visibility into advanced threats that speeds detection and remediation responses. Its extensible architecture provides a framework for IT teams who are burdened with multiple solutions to more easily view, respond to, and manage the threat defense lifecycle.

Allen is highly-regarded for its technical expertise in McAfee security solutions, and has provided architecture, design, deployment, and operations services for large, complex enterprise and critical infrastructure networks. Allen has a long history of supporting the McAfee Professional Services Group, which has utilized Allen on a large number of services engagements in the United States, Canada, Mexico, and India. Allen is the only professional services partner to achieve an “Exceptional” quality of service rating every quarter from McAfee Pro Services for the past three years. Allen Corporation is also one of the first partners to achieve McAfee Services Delivery Specialization for Endpoint Security (ENS).
